

# 24 Hour Replacement Pumps

Bronze standard seawater pumps complete with motor, ready for **immediate despatch**

Capacities: 10 - 800m<sup>3</sup>/hr at 15 - 40m heads

We understand the inconvenience of a pump failure and as a result we have developed a rapid replacement pump initiative to satisfy your urgent requirements.

Hamworthy have pre-selected a range of pumps that are suited to most common duties on board ships and hold in our stock.

Based on the customers specification, we select a pump from our stock that is nearest to the duty required and despatch the pump complete with the motor **within the same day**.

These pumps will come with the following stock features:

- ▶ Bronze pump and motor complete\*
- ▶ Makers certificates\*
- ▶ Pre-packed in ISPM 15 compliant packaging

\* Class certification can be provided upon request. Motors supplied cover both 50Hz/60Hz.

Through Hamworthy know-how we can offer pumps from an extensive range to your exact duty and classification requirements, wherever and whenever you need us.

## Despatch to major ports

We can despatch to major maritime ports around the world at pre-defined freight rates, such as:

- ▶ Australia (Fremantle, Melbourne and Sydney)
- ▶ China (Dalian, Guangzhou and Shanghai)
- ▶ Europe (Hamburg, Rotterdam and Southampton)
- ▶ Hong Kong
- ▶ India (Chennai, Kolkata and Mumbai)
- ▶ Japan (Tokyo, Osaka and Yokohama)
- ▶ Korea (Inchon and Busan)
- ▶ UAE (Dubai and Fujaira)
- ▶ USA (Houston, New York and San Francisco)

## Innovative online quoting service

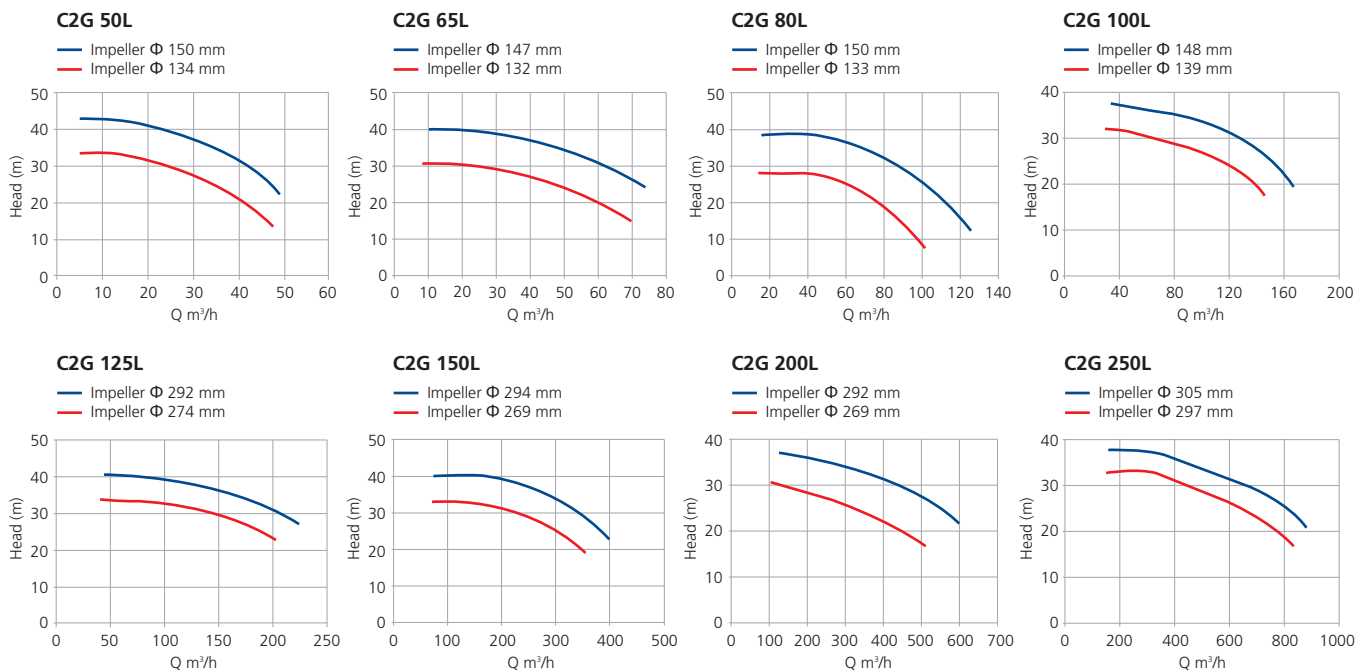

Once again Hamworthy is leading the field, this time with the introduction of the online quoting service for our 24 Hours Standard Engine Room Pumps. All you need to do is fill in a few details online and you will be notified instantly if a suitable pump is in stock that meets your requirement, together with the price, data sheet and dimensional drawings. For our online quoting service please visit:
